ACE Annual Civil Engineering WORKSHOP

1st edition 2016

Lean & 3D Printing in Construction

Friday 4 March 2016

9:00 – 17:30

Presentation

This first edition of the international workshop aims to bring together students and professionals around the themes of **3D Printing and Lean Construction**.

The day will be organized around lectures, round tables, and moments of informal exchanges. The event seeks to create, for the first time, a dynamic around the Lean Construction and 3D printing thematics in the region as well as in France.
